

Resume

Matt Kintner is a landscape designer with 5 years of experience that includes work on several master planned communities in Southern California and two years of diverse experience at Chroma Design. He holds an accredited Bachelors Degree in Landscape Architecture from Iowa State University. Matt brings strong skills in computer graphics, three dimensional digital modeling, technical drafting, site design, and project management to the firm.

Project Experience

At Chroma Design, Matt is currently working on design projects that range from environmental graphics and garden design to bridge aesthetics, community streetscape and identity master plans. Matt is responsible for the preparation of master plan documents, three dimensional computer models, AutoCAD construction documents, presentation plans and renderings. He is also directly involved in the coordination between team members and the exchange of project information.
